always specify the hinge type when ordering!

Reduction from CO by
90° door open

Please note that...:

- ... Noise reduction values for all systems were measured under test conditions. Final values depending on room and installation conditions
- ... further design and technical details to be informed before start of production
- ... the production process requires a list with all relevant product properties
- ... price and amount of items might be modified after receiving further information
- ... installation or coordination drawings are not part of the offer
- ... handle and cylinder are not covered by this offer
- ... manufacturing aberrations from specified colour types could appear due to material background or change reasons and are no claim reason
- ... weights attached to the described products shall not exceed a maximum weight of 30kg/leaf.
- ... clear opening (dimension in door frame, reduction by opened door not taken into account) with a maximum of COxCH 1050x2100mm. Individual dimensions according requirements

Please note following rules for distance of hinges			
type VX			
Clear height	< 1500mm	up1500-max	
Hinge distance 1	150mm	150mm	
Hinge distance 2	not applicable	370mm	
Distance between hinges	variable	variable	
Hinge distance 3	250mm (fix from top of sill)	250mm (fix from top of sill)
